iP Vest – R &D innovative solutions to technical and smart functional multi-risk protection clothing

Project nº 033994

Objective:

To develop **multi-functional textile structures** and **intelligent hybridization** for technical and functional multi-risk protection clothing, as well as monitoring system, hardware and firmware control, interface system and software and data transmission.

The innovative solutions provided by the iP Vest fit into the important and strategic market of functional and technical textiles - Protech area and is mainly implemented by professionals from the ICT and energy industries.

For the success of the project a multidisciplinary and complementary consortium was created with two other companies (*SCORECODE - Vestuário Técnico e Funcional* and *VIATEL-Redes de Telecomunicações*) and two ENESII (*CITEVE* and *CENTI*).

Approval:

Investment	Eligible expense	Total incentive	Non-repayable incentive	Support rate
802,140.24 €	802,140.24 €	549,633.20 €	549,633.20 €	68.52 %
